Birdstrike
Association

Inter-regional & Multidisciplinary Collaboration

World Birdstrike Association

- The bird/wildlife strike risk is complex:
- Aviation CANNOT solve / reduce the risk alone.
- Risk reduction goes well beyond ICAO and EASA.

A multi disciplinary international / inter-regional
collaboration with **non-aviation** stakeholders is
ESSENTIAL:

COOPERATION

Coordinate, Facilitate, Stimulate,
Motivate the collaboration and
cooperation

- **International & Inter-Regional**
- **Aviation** Stakeholders
- **Non-aviation** stakeholders
(e.g. **Agricultural, Ecology,
Environment, etc.**)
- **Non-civil** aviation stakeholders
(Military, Training, etc.)

A Gap that the WBA tries to overcome

WBA – goal and mission

World Birdstrike Association

- Non Profit organization; privately funded
- Only volunteers from all over the world
- No remunerations; very, very low cost structure enabling commitment from all over the world.

Goal (constitution act)

Be a catalyst to improve flight safety by reducing the wild life strike risk at a cost effective way, considering the need for sustainable environment

Mission of the WBA is to facilitate;

1. a platform for the national bird/wildlife strike committees and other entities, civil and military.
2. a platform for pursuing a constructive and cooperative relationship with all stakeholders.
3. a worldwide forum for the reduction of the bird/wildlife strike risk to aviation.

Green: already exists
Amber: In progress
Red: Soon to be started

The challenges

- International / Inter-regional multidisciplinary structured collaboration.
- Inter-regional / global BSCs collaboration.
- MoUs and / or letters of intend with: ACI, IATA, CANSO, Industry, Manufacturers, UN, FAO etc.
- Active support by ICAO and EASA.

Birdlife International
and
the World Birdstrike Association

STATEMENT OF INTENTION

**Castle the Keukenhof, Lisse the Netherlands,
23th of April 2013.**

“In principle we agree to the intention to develop together with the other signees of this statement to jointly develop a global action plan on the reduction of the wild life strike risk to aviation.

This industry and environmental initiative aims to safeguard the life of fellow humans and fellow animals, in that order. This action plan concentrates on integrating existing best practices, aims at measurable results and intends to provide to-the-point recommendations.

It serves also as an continuous education and enhancement.”

GLOBAL ACTION PLAN

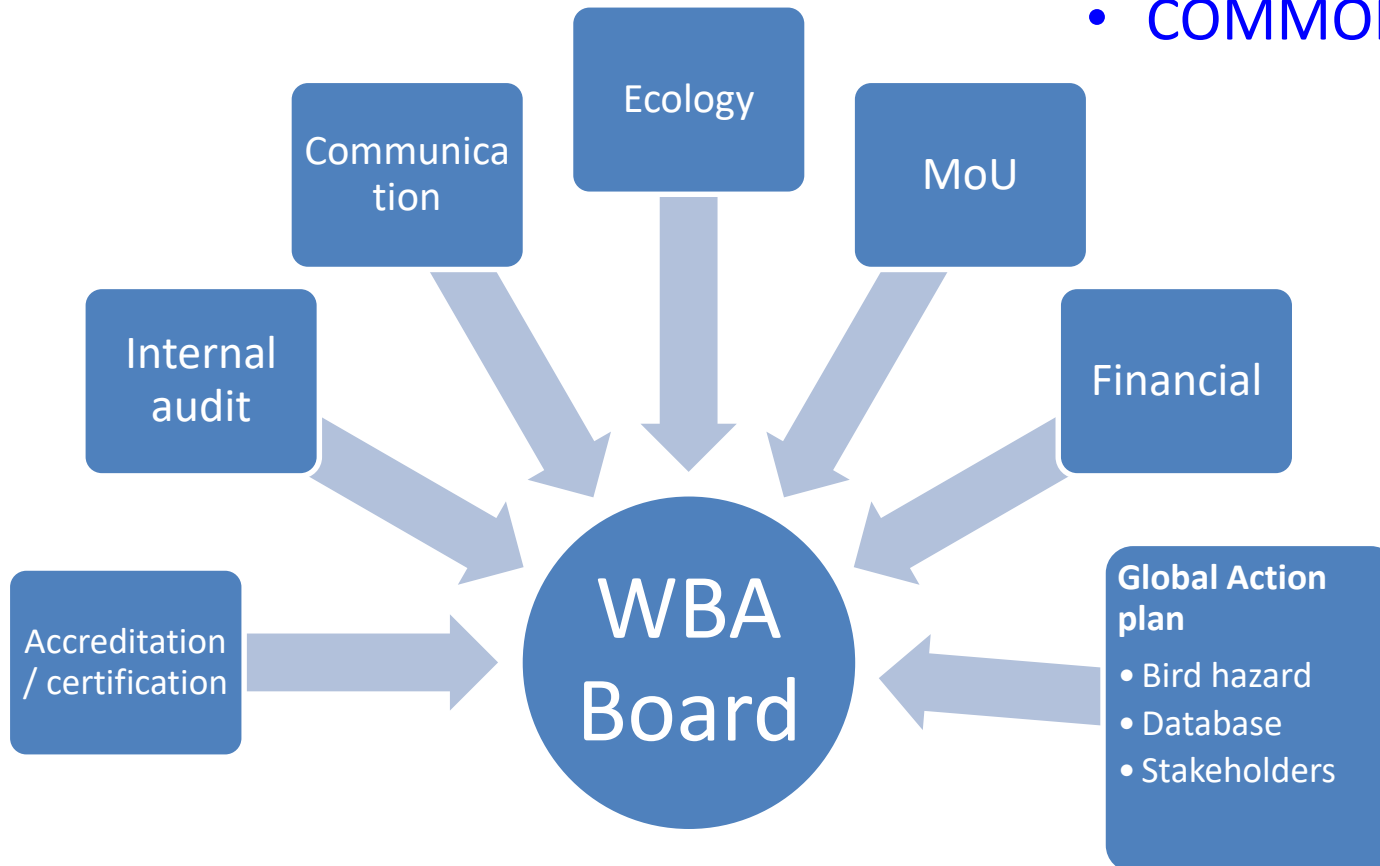

On the Reduction of the
Wildlife Strike Risk to Aviation

WBA COMMITTEES

- ADVISORY BODIES
- PROJECT BASED
- COMMON INTEREST

INTERNATIONAL COLLABORATIONS

Aviation

Nature Protection

WBA REGIONS

- Regional responsibility
- Global coordination
- Regional influence

Green: already exists
Amber: In progress
Red: Soon to be started

Our proposal

- Commitment to work together
 - aviation stakeholders
 - non-aviation stakeholders
- BSCs in a global BSC platform;
- Stakeholders active involvement in a Global Action Plan (including non-aviation);
- Active support (facilities, financial, manpower, network and expertise.)

WBA ambition

- Facilitate stakeholders collaboration on regional level;
- Facilitate regional cooperation of BSCs;
- Develop synergy between stakeholders, aviation and non-aviation;
- Facilitate a global network

- Very low cost, non-profit conferences, allowing participation and exchange of information for All.
- Help for those needing help
- Easy sharing of knowledge and expertise
- Free exchange of Data

WBA Global Conference

Save the Dates: 19th-23th of Nov, 2018

Where: Warsaw, Poland

Monday 19th:

Tuesday 20th: Presentations & Workshops

Wednesday 21st:

Thursday 22nd: JAA TO Certified Bird&Wildlife

Friday 23rd: Hazard Management Training
(special WBA rate)
